

*Stephany Mottet*

*I am the AmeriCorps member working with Child Health Specialty Clinics (CHSC) through their Davenport office. CHSC receives Title V funding to provide health services to children and youth with special health care needs throughout the state. Currently I am involved with a wide range of projects that includes developing a protocol for working with families of children who are screened as being overweight; creating a healthy work environment in the CHSC offices; and assisting with the development of a training module on measuring BMI in children and youth with special health care needs. I am a native of Bellevue, Iowa. In 2009, I graduated from Iowa State University with degrees in Nutritional Science and Dietetics and a minor in Spanish. I just completed my dietetic internship at the University of Minnesota where I am also finishing up my masters project to earn my Masters of Public Health.*
